Course Held at Livingston Healthcare

Hands-On Introductory Ultrasound Course

Objectives

- Develop a basic understanding of how ultrasound works.
- Introduction to studies that may help in clinical decision making, specifically: FAST exam (focused assessment with sonography in trauma, identification of intrauterine pregnancy, IV line placement, identification of abdominal aortic aneurysm, and evaluation for gallstones.
- It is focused toward providers with limited to no ultrasound experiences.
- Introduction to Procedures
- 1/2 of scheduled time completing proctored ultrasound studies on live patients.
- Problem based learning

When: **October 1st & 2nd 2021**
