

ONSITE MEDICARE BOOT CAMP

Critical Access Hospital and Rural Health Clinic Version

Participants in the Boot Camp walk away with tools and skills to research troublesome Medicare questions. An HCPro instructor will deliver 'rules-based' learning, helping students to find and apply CMS rules and guidelines to ensure that hospital services furnished to Medicare beneficiaries are billed accurately and appropriately.

The participants will work a set of exercises/case studies after each module to ensure they understand the concepts and how to apply them in real-world situations. This class will help participants:

- **Maintain compliance with the latest rules and regulations**
- **Prevent missed revenue and denials**
- **Prepare for RAC and other government audits**

MARCH 26-28, 2019
Hilton Garden Inn,
2465 Grant Road
Billings, Montana
59102
406-655-8800
